Subject: [Fwd: Ask A Librarian question]

Hi Gavin,

The hard copy of this document was published in December 2000 by the University of Hawaii Sea Grant College Program. We are forwarding this message to our Aquaculture Information Specialist, Eileen McVey, and she will let you know if the 2001 Shizuoka installation date in table 2 is a typo.

The following is a request submitted via the web:

First Name: Gavin
Last Name: Milczarek-Desai
E-mail: gmilczar@quarles.com
Phone: 520-770-8716
Status:

Question: I was wondering what the date of publication is (i.e., the day/month/year of public availability in print and/or on the Internet) for one of the references I found in your library--"The Application of Deep Sea Water in Japan" by Takuma Nakasone and Sadamitsu Akeda, UJNR Technical Report No. 28.

I have seen elsewhere the date of publication being referred to as "2000." Yet, I note that on page 70, in Table 2, reference is made to an event in 2001 (water pumping statistics for the Shizuoka system).

As the UJNR Technical Report No. 28 reference is itself undated, I would greatly appreciate any clarification.
